# Smarthouse Electrical Solutions

Smarthouse Electrical Solutions is a full service electrical contractor specialising in real estate compliance, commercial projects and in-home and business automation.

With over 50 years of combined experience in the industry, our approach is to ensure leading agencies and residential property investors receive the right advice, guidance and expertise to suit your individual needs, with client satisfaction and project delivery the two key pillars on which we calculate success.

With Australia's only Contractor Owned Clipsal Showroom, we are also able to deliver lighting, AV, security, cameras, intercoms and heating and cooling, with advice on how to integrate innovative and sophisticated technologies that are both user friendly and reliable.

The Smarthouse Electrical Solutions approach is simple. We provide the right solutions to suit your needs.

**RELIABLE, FAST AND PROFESSIONAL ELECTRICAL  
SERVICES 24 HOURS A DAY, 7 DAYS A WEEK**

## From a brand you know and trust

The Smarthouse team of electrical experts provide support for projects large and small, from minor domestic works through to large-scale developments. We provide end-to-end solutions to suit your individual needs.

### **Smarthouse Solutions for Property Managers**

- We provide outstanding service to property managers across both big jobs and small, as well as everything in between. The Smarthouse Electrical Safety Check program offers an annual inspection of all electrical points, switches, fittings and appliances, as well as free replacement of light globes in rental properties.

### **Residential and Commercial Builders**

- Smarthouse has extensive experience providing expert advice and knowledge for all developments, ranging from small scale domestic projects through to large-scale commercial projects.

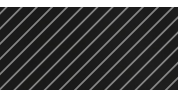

**Institutional Maintenance** - Smarthouse is ready to assist with the maintenance of institutions including Hospitals, Universities, Office Complexes as well as Retail Centres. Whether it is an emergency call-out or scheduled maintenance visit, Smarthouse guarantee our professionals will be there on time and on budget.

The Smarthouse Electrical Solutions Programmed Maintenance Initiative offers proactive evaluation of all electrical facilities on an annual basis.

**General Public** - Smarthouse Electrical Solutions provide support to individual residences to ensure the safety of your home or property. Whether it be a faulty powerpoint, a broken light fitting or an issue with your electric oven, there is no job too big or small for the team. From smoke alarms to LED lighting, from new powerpoints to switchboard upgrades, we've got you covered.

Our attitude towards safety, project delivery and customer services is what makes us leaders in the business, 365 days a year.
